A typical new installation includes: Isolation bypass valves, a primary loop with pump, pipe and fittings, venting, condensate drain, leak seal, boiler conditioner, Y-strainer, air seperators, cushion tank, water feed and backflow preventor, gas piping and electrical.

In a retrofit situation certain items may not need replacement, typical savings may be:

Air separators	$86
Cushion tank	$209
Water feed and backflow preventor	$71
Gas piping	$88
Electrical	$32

Prices are for standard gas to gas changeovers. Distribution changes, gas piping over 10' long or complicated venting and removal of oil tanks are extra. Prices include all material, labour and setup. Prices may vary depending on the actual installation conditions, cal for a written at no cost or obligation. HST is extra @13%
