2023 Propane Generator Tank Program

Tank Rental

Propane tanks are either customer owned or rented annually to the customer. Rental rates will remain fixed during the life of the tank. Propane tanks include a satellite tank monitor.

		Annually
420	lb. cylinder (364 litres)	\$260.00
500	USWG tank (1609 litres)	\$982.00
1000	USWG tank (3218 litres)	\$1,544.00

Tank Purchase

420	lb. cylinder (364 litres)	\$1,560
500	USWG tank (1609 litres)	\$5,890
1000	USWG tank (3218 litres)	\$9,260

During the rental term tanks may be purchased for the current purchase price less 4% annual depreciation

Tank Installations

Tank installation prices listed includes the customer taking ownership of all piping, regulators and tank bases. Cylinders can be placed directly against a building wall, while storage containers larger than 420 lb. cylinders must be a minimum 10 feet from buildings, property lines and ignition sources. The prices listed for 500 and 1000 Gal include trenching and 10 feet of buried piping. Piping greater than 10' is \$2.5/ft. excluding trenching or \$8/ft including trenching. Trench price includes raked finish but not sod or seeding.

420 lb. cylinder or 500 & 1000 USWG tanks \$750

Inspections

Regulations require that the first fill of any propane tank is dependent upon satisfactory inspection of the generator and gas supply system by the propane supply company. If the installation requires a separate inspection because the generator cannot be tested an additional \$95 fee is charged. Any deficiencies to code must be corrected before delivery is made and are not included in the GASCheck inspection fee.

All prices listed vary depending on the actual installation conditions, call for a written quote at no cost or obligation.
HST is extra @ 13%.
